Provide Holdings Pty Ltd ATF A J Evans Trust T/A BJ's Timber Flooring and its successors and assigns ("the Supplier") provides the following limited warranty against defects to:

("the Customer") *[Insert Customer's Name In Box Above]*

1 WHAT THIS WARRANTY RELATES TO

- 1.1 This warranty relates to Allure Engineered Prefinished Oak which is provided to the original purchaser and the defect comes apparent and is reported to the Supplier in accordance with clause 4.1 ("Defect").
- 1.2 All timber, as a natural product, is prone to some movement and this is to be expected. During the life of a timber floor, it will to some extent exhibit movement such as contraction / shrinkage and or expansion. These are not considered faults and are not covered under the warranty. Extreme climatic variation may result in excessive movement that can ultimately end in failure.
- 1.3 The conditions applicable to the warranty given by clause 4.1 are:
- (a) the warranty shall not cover any defect or damage which may be caused or partly caused by or arise through:
 - (i) failure on the part of the Customer to properly maintain or store any Goods or to follow any instructions or guidelines provided by the Supplier; or
 - (ii) the Customer using the Goods for any purpose other than that for which they were designed; or
 - (iii) colour and grain variations;
 - (iv) gloss reduction;
 - (v) scratches or dents;
 - (vi) intentional or unintentional misuse or damage caused by water, liquids, insects, animals, spiked or heeled shoes or high traffic areas;
 - (vii) excessive heat, temperature, sunlight and humidity levels;
 - (viii) excessive sub floor moisture;
 - (ix) fine surface checking or splitting;
 - (x) colour change due to sunlight UV or oxidisation;
 - (xi) uneven subfloor;
 - (xii) building movement;
 - (xiii) colour variations between boards and batches;
 - (xiv) the continued use of any Goods after any defect becomes apparent or would have become apparent to a reasonably prudent operator or user; or
 - (xv) improper application or installation; or
 - (xvi) fair wear and tear, any accident or act of God.
 - (b) in respect of all claims the Supplier shall not be liable to compensate the Customer for any delay in either replacing or remedying the workmanship or in properly assessing the Customer's claim; and
 - (c) the warranty shall cease and the Supplier shall thereafter in no circumstances be liable under the terms of the warranty if the workmanship is repaired, altered or overhauled without the Supplier's consent.
- 1.4 For Goods not manufactured by the Supplier, the warranty shall be the current warranty provided by the manufacturer of the Goods. The Supplier shall not be bound by nor be responsible for any term, condition, representation or warranty other than that which is given by the manufacturer of the Goods.
- 1.5 In the event that the manufacturer's Goods are deemed to be faulty, the Supplier reserves the right to halt the commencement for repair or replacement Goods until such time as it is agreed between all parties the person/s that will be liable for all associated expenses with the repair or replacement of the Goods.
- 1.6 Regular preventative maintenance and cleaning is recommended, and the following should be carried out, unless otherwise indicated in writing between the Supplier and the Customer:
- (a) clean the floor at least once a week to prevent the build-up of grit & dirt on the surface. Clean more frequently in high traffic areas or as required
 - (b) have mats both inside & outside external doors to trap grit & remove moisture from shoes
 - (c) remove spills immediately and spot clean the area using the recommended cleaner and a soft cloth
 - (d) consider having rugs in high traffic areas to reduce localised wear on the floor. Rugs should allow the floor to breathe
 - (e) install timber floor guards on the base of furniture legs, particularly frequently moved items such as chairs
 - (f) avoid creating indentations in the floor for example spiked shoes, stiletto heels and pet claws
 - (g) do not drag items across your floor. Sand or grit may scratch the coating, or a sharp edge may gouge the timber

- (h) humidity levels must be maintained between thirty percent (30%) and seventy percent (70%) where humidifiers or dehumidifiers may be required
- (i) wipe up spills immediately
- (j) cleaning your floor is an essential part of prolonging the life of the finish
- (k) remove all loose dirt, grit, and dust before cleaning
- (l) steam cleaners are not recommended by coating manufacturers to clean floors
- (m) should vacuum cleaners are used to clean floors then a specific vacuum head designed for timber floors must be used
- (n) damp spray or mop only. Never "wet mop" your floor. Too much water will cause your floor to swell, lifting the board edges and leaving the surface uneven
- (o) only use recommended timber floor cleaners on your floor. Do not use household cleaners or polishes. These materials may damage the finish and make over-coating difficult in the future.
